This is a series of four classes which will introduce beginners to the terminology of bikes and the basic kinds of repairs necessary to maintain and/or repair a bicycle. All the classes include live demonstrations and provide follow-up resources.

- Free for members of the Campus Bike Center and The Bike Project
- Ideal for people beginning a Build a Bike
- Great overview for members interested in becoming volunteer staffers
- No mechanical experience necessary!
- Fun, inclusive, relaxed atmosphere
- The Bike Project downtown Urbana space at the IMC is readily reached by bus
- Class topics include: bottom bracket and headset overhaul; chains, derailleurs, and gears; wheel hubs and wheel truing; cabling and brake adjustment
