PSA text

Interested in using media to transform your community?

This July, join us in *taking over the airwaves* as the Urbana-Champaign Independent Media Center hosts Grassroots Radio Conference 2012.

Co-sponsored by Prometheus Radio Project, Free Press, WRFU and WEFT, the Grassroots Radio Conference celebrates the vibrant medium of *community radio*. We bring together media artists, community organizers, radio operators and engineers, and ordinary people from across the country to learn, discuss, brainstorm, and build.

Featuring keynote speaker Joe Torres, author of *News for All the People: The Epic Story of Race and the American Media* & poet & activist Hakim Bellamy.
