**FILM SCREENING**  
at the Women's Resources Center

## ABOUT THE FILM

The film revolves around the revolutionary educational system of Siragu, a school for homeless and underprivileged children, located in the remote outskirts of Chennai in Tamil Nadu, India. For a long time, the focus of education in India has been one of compulsive learning procedures, rote learning and examination-based evaluation with no emphasis on children's understanding of concepts, critical thinking and implications in real life. Siragu school, in spite of limited resources and unimaginable obstacles has maintained a quality of education that we rarely see in current systems all around the world.
