AN EXHIBITION TO BENEFIT FOUR WALLS AND A ROOF PROJECT

Four Walls and Roof Project (FWAAR) is a local Champaign-Urbana non-profit working to build the first battered women's shelter in Cotacachi, Ecuador.

FWAAR's Cotacachi Project addresses the need for emergency refuge for women survivors of domestic violence in the rural Andean region of Cotacachi, Ecuador and as an integral part of the Cotacachean Interfamilial Violence Network, the shelter will work to strengthen the already profound grassroots efforts to eliminate gender violence and promote women's empowerment.

Our role is two-fold. FWAAR seeks to generate substantial donations to financially facilitate the development of the women's shelter and provide our Ecuadorian partner organizations with comprehensive research to ensure sustainability and facilitate the creation of social and educational programs.

Four Walls and a Roof Project works to eliminate violence against women and children and to provide safety and support to survivors of that violence as they take control of their own lives.
