Qty	Item Description	Condition & Comments
2	Canon XH-A1 3CCD HDV Camcorder + Power Cables + Instruction Manual	1 Excellent, 1 Good (Broken on-board mic but all other functionality great as far I know including XLR inputs)
1	Canon XH A1 Cinevate Brevis 35mm adapter	Good. Honestly, I've used this once and never touched it after that. I bought it used in a bundle purchase and didn't have the need or time to learn how to use it. I was an extreme media novice when I purchased it and had more grandiose notions of self than circumstance would permit. Includes: - Cinevate Brevis 35mm System 72mm + Lens + FD Mount - Cinevate carbon rail system + carbon lens holder.
1	Lowell Lighting Kit + includes 3 umbrellas of different styles	Excellent. FYI The umbrellas are non-standard and purchased afterwards. I bought this from another person and this kit has been a workhorse for me. Includes: 1xLowel Tota-Light Tungsten Flood Light (120-240VAC) 2xLowel Pro-Light (120VAC/12VDC) 1xLowel - Tota/Omni Gel Frame for 10x12" Gels 1xHard Carrying Case 3x Light Stands

1	Rode NTG-2 Battery or Phantom Powered Condenser Shotgun Microphone	Excellent
1	Sony RDR-HX900 DVD Recorder	Excellent. This is a workhorse DVD recorder. You can easily record content live from a video camera to the hard drive and burn a DVD off the device.
2	Davis & Sanford ProVista Airlift Tripod with Pneumatic Centerpost with FM18 Fluid Head	1 Excellent, 1 Good (One of the rings on the tripod fell out. It still works and I used it all the time)
1	Elation DP-415 Boxes	1 is in Good condition, 1 is In Poor Condition. Basically, the good one has enough functional slots to run at least 3 lights. The other one needs repair but might be cheaper to fix than to buy new. I didn't have time or use to even bother investigating but you can have it in case for the sake of potential spare parts.
2	Kata CC-193 GDC HDV CASE (Camera Bag)	1 Excellent, 1 Good (This one just has a few more miles on it from use)
1	Elation Stage Setter 8 DMX Controller	Good, AFAIK everything is functional. I had a simple set up and never learned any of the higher functionality that was possible.
